

## **General Information**

A guide to the regulations and requirements of Nebraska law affecting chemigators in the Lower Niobrara Natural Resources District.

### **Chemigation Applicators Must Be Certified**

~ Whether or not the permit holder is certified, the person who actually applies chemicals through an irrigation system **MUST** be certified.~

~ Certification consists of attending a course of instruction offered by the University of Nebraska Cooperative Extension, passing a written exam, and receiving the yellow chemigation certification card. Check with the Lower Niobrara Natural Resources District or County Extension Office for dates and times of the courses.~

~ Certification is good for four years, after which renewals are required.~

~The Lower Niobrara Natural Resources District should be notified by the permit holder of a change of certified applicators.~
